

# Gonad genes counts by pH, upregulated in low pH (blast identified)

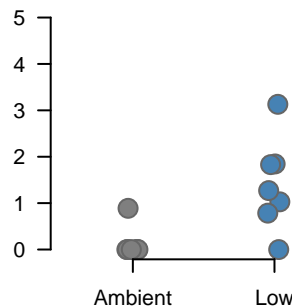

Heat Shock Protein 70

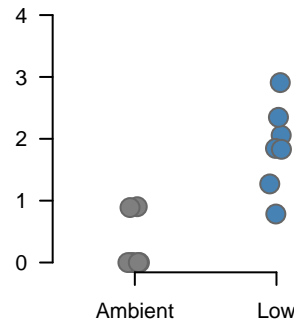

C-terminal-binding protein

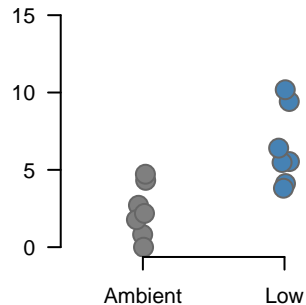

Elongation factor 1-delta,  
protein biosynthesis

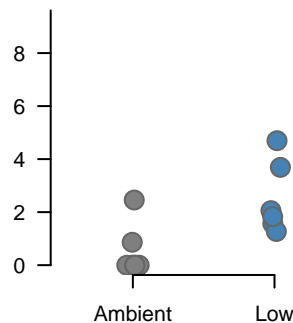

chmp2b (related)

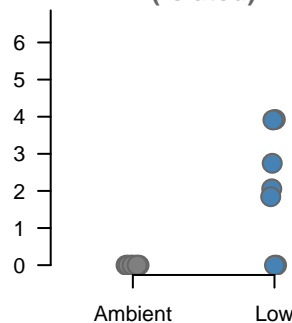

ADP-ribosylation  
factor 6 (related)

Thymidylate synthase

glutathione-specific gamma-  
glutamylcyclotransferase 2  
(related)

Normalized counts
